Guinot's Hydrazone Fluid Cream is a fresh, light moisturizer that absorbs quickly and hydrates intensely to keep skin glowing day and night. This face cream uses ingredients like mattifying powders and zinc gluconate to reduce the appearance of shine and create a velvety, matte finish. Without leaving a greasy residue, this cream keeps skin deeply moisturized all day. 212-532-1030 or guinotusa.com

Karin Herzog's WHITE MORNING Illuminating Face Cream is specifically designed for people looking for a gradual solution, without side effects, for uniform skin tone and reduced appearance of pigmentation spots. It helps clear sun spots, as well as hormonal discoloration. White lily oil is known for making the skin brighter and reducing dark marks on the skin. Gooseberry is rich in vitamin C and antioxidants, which play an important role in reducing skin blemishes and pigmentation. 305-777-2543 or karinherzog.com
